

BISWAJIT JANA

Software Engineer

+91 9033638853 | janabiswajit139@gmail.com | [Portfolio](#) | Rajkot

[React](#) | [JavaScript](#) | [Python](#) | [REST APIs](#) | [Full Stack Development](#)

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 2+ years of experience building scalable, data-driven applications across frontend and backend systems. Skilled in React, JavaScript, and Python, with experience designing RESTful APIs, modular architectures, and efficient data workflows. Strong understanding of system design, OOP, and performance optimization, with a passion for continuous learning and crafting high-quality software.

TECHNICAL SKILLS

Languages: JavaScript, Python, PHP, Java, TypeScript (Basic)

Frontend: ReactJS, HTML, CSS, JavaScript

Backend: Laravel, FastAPI, REST API Development

Databases: MySQL, SQL, RDBMS

Tools & Technologies: QuickBase CRM, API Integration, Jupyter Notebook, Git, Postman

Core Concepts: OOP, MVC Architecture, Data Structures & Algorithms, System Design

Other: Data Analysis (Pandas), Problem Solving, Debugging

Cloud: AWS (Basic)

PROFESSIONAL EXPERIENCE (2+ YEARS)

Software Developer | Oct 2023 - Present

Techxperts (Creative Web) | Rajkot

- Developed and maintained scalable full-stack applications using ReactJS and Laravel, supporting 10k+ users with high reliability and performance.
- Designed and implemented RESTful APIs with authentication, validation, and third-party integrations, reducing manual operations by 95%.
- Built modular frontend architecture using React Hooks and Context API, improving state management and scalability.
- Engineered dynamic backend modules using OOP and MVC principles, eliminating hard-coded logic and improving system flexibility.
- Performed data processing and validation using Python (pandas), improving data accuracy by 80% through anomaly detection and cleanup.
- Optimized application performance through code refactoring and efficient database queries, reducing API latency by 30%.
- Designed and managed relational database schemas using MySQL, ensuring efficient data storage and retrieval.
- Collaborated with cross-functional teams across the product lifecycle, improving workflow efficiency and accelerating feature delivery.

PROJECTS

Data Integration Automation | Techxperts (Creative Web)

- Developed scalable RESTful APIs to ingest and process multi-source data into CRM systems, reducing manual data updates by 100%.
- Built a dynamic, configuration-driven filtering engine using backend logic and data structures, eliminating hard-coded conditions and improving flexibility.
- Designed middleware for seamless third-party integrations, enhancing data accuracy by 98% and ensuring consistent data flow across systems.

Scalable Web Applications Platform | Techxperts (Creative Web)

- Built high-performance full-stack applications using ReactJS and Laravel, improving page load times by 30% and supporting 10k+ active users.
- Designed modular frontend architecture with reusable components, improving development speed and maintainability.
- Implemented monitoring and testing strategies, reducing production defects by 35% and improving system reliability.

Leveraged Python for data analysis and automation workflows, enabling intelligent data validation and processing pipelines.

EDUCATION

Master of Computer Application (MCA) | May 2023

Vellore Institute of Technology | *Vellore*

Bachelor of Computer Application (BCA) | May 2021

Marwadi University | *Rajkot, Gujarat*

CERTIFICATIONS

- Python for Data Science & AI – Coursera
- Data Science Methodology – Coursera
- HPE Software Engineering Simulation – Forage
